SUMMARY

B.Tech Computer Science graduate grounded in Core Java, object-oriented programming (OOPs), HTML, CSS, JavaScript, and SQL databases. Proficient in engineering scalable full-stack web architectures utilizing modern frameworks like React and Node.js. A multidisciplinary engineer with a Mechanical Diploma background, dedicated to resolving complex software challenges.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science & Engineering **7.12 CGPA**
Dayananda Sagar University, Bengaluru, India

Diploma in Mechanical Engineering **89.48%**
Mahatma Gandhi Polytechnic, Yadgir, Karnataka, India

SKILLS

Programming: Java (Core), JavaScript, Python
Backend & APIs: Node.js, RESTful APIs
Frontend: HTML, CSS, React.js
Database & Cloud: MySQL, AWS (EC2, S3 – basics)
Soft Skills: Problem-solving, Team collaboration

EXPERIENCE

Internship - Data Science Intern, White & Box Feb 2025 – May 2025

- Gained foundational knowledge in Python-based data analysis and data visualization using statistical methods.
- Studied data cleaning techniques and statistical methods used in tech product environments to improve workflows.
- Explored the integration of data-driven insights into software development and full-stack project lifecycles.

ACADEMIC PROJECTS

GrowPure Agricultural Platform 2022 – 2025

- Developed a web platform enabling direct transactions between farmers and buyers, reducing dependency on intermediaries.
- Implemented crop disease detection functionality to help farmers identify issues at an early stage.
- Designed a responsive and user-friendly interface for easy navigation across multiple devices and screen sizes.

NFT Marketplace - Using Ethereum Blockchain 2024 – 2025

- Developed a secure and fast digital marketplace for buying and selling NFTs using blockchain technology.
- Addressed common industry challenges such as high transaction fees and slow processing speeds.
- Enhanced the overall user experience for the acquisition and sale of digital art through streamlined processes.

CERTIFICATIONS

- **Java Full Stack Web Development** – Alpha Tech Academy, Bengaluru (2026)
- **MasterClass in Full Stack Development (MERN)** – NoviTech R&D, Coimbatore (2026)
